INSTRLATION MRNUAL

Prepare the required components (A x1, D x2).
First, remove the pre-installed Q from component A, then insert A into D.
Finally, secure A and D in place using Q.

INSTRLATION MRNUAL

Prepare the required components (B x5, P x10, R x10).
First, screw components P and R into the mounting holes of B
(Note: do not fully tighten, ensuring sufficient clearance between B and R).
Then, slide component R into the groove of D.
Finally, position B at the desired location and fully tighten P
(Note: ensure the crossbar adjustment does not block the screw holes).
